

HTML to PDF Test Document

HTML to PDF Conversion Test

Testing HTML content conversion to PDF format

Document Features

This document tests various HTML elements and their conversion to PDF:

Text formatting: Bold, italic, and normal text

HTML elements: Headers, paragraphs, lists, and tables

Content extraction: Proper text extraction from HTML

Test Results Table

Test Case

Expected Result

Status

Notes

Title Extraction

HTML title in PDF metadata

Pass

Correctly extracted

Content Conversion

HTML to text conversion

Pass

Tags removed, text preserved

Structure Preservation

Logical text flow

Pass

Proper paragraph breaks

Important Note

This HTML to PDF conversion focuses on content extraction rather than visual formatting preservation. The goal is to create readable, well-structured PDF documents from HTML content.

Technical Details

HTML parsing removes script and style tags

Block elements are converted to paragraph breaks

Text content is extracted and formatted

HTML entities are properly decoded
